

## **Section 5 - Interfaces and Lambda Expressions**

### **Quiz**

1. Explain the difference between an interface and abstract class along with when you should use an abstract class and when you should use an interface.
2. Why are anonymous inner classes useful? How do they work?
3. Why is the default keyword useful?
4. What are lambda expressions? Why are they useful? What is the relationship between a lambda expression and an anonymous inner class?
